Version number:
v5

Scope of Management System

OfficeMax operates from over 20 locations in New Zealand covering distribution, retail, sales and shared service activities. This document describes the Context of the organisation and scope of OfficeMax's Health, Safety and Sustainability Management System (EMS).

Business Overview

OfficeMax New Zealand operates distribution centres in Auckland and Christchurch along with 17 additional retail stores (with regional sales office attached) and one sales office in Wellington. These distribution centres also stock over 13,000 different product lines (from local and international suppliers). We deliver approximately 25,000 orders per week.

We have a full range of products, including Technology, Cleaning, hygiene and safety, Furniture, Café, Packaging and Print services. We employ approximately 700 staff.

Our activities

We source products from Local and international suppliers store them in a warehouse, retail store and deliver via third party transport. Customers can purchase through Online, phone, their account manager or retail store.

Scope of the HSS Management System

Personnel (Organizational units and Functions)

All OfficeMax personnel (workers) are within the scope of the health, Safety and Sustainability Management system (HSSMS). This will also include employees who have a shared services responsibility with either OfficeMax Australia (National Call Centre, Account Receivable and Payable) or Croxley. Contractors working at OfficeMax premises and all company visitors excluding customers visiting retail stores.

Premises

The HSSMS covers all OfficeMax owned or leased premises (where OfficeMax has a responsibility for the building compliance). The HSSMS will cover any new sites or businesses acquired by OfficeMax New Zealand Ltd.

Physical Boundaries

The HSSMS activities undertaken within each site will include up to the property boundary line, in most cases the boundary fence.

Equipment

It also covers all equipment and plant in these premises (except items owned by a third party- Examples of such exclusions are electrical substations and transformers) operated by OfficeMax personnel.

Product

The HSSMS includes consideration of the environmental impacts of the use and disposal of all OfficeMax products used internally and sold. The HSSMS also covers the sustainable forestry aspects of OfficeMax's paper products.

OfficeMax encourages all its suppliers to operate with ethical practices around the Environment and human rights however the scope of our HSSMS does not cover the operations of our suppliers and service providers. OfficeMax will work with suppliers to ensure supply-chain integrity for its Environmentally-endorsed product range.

Services

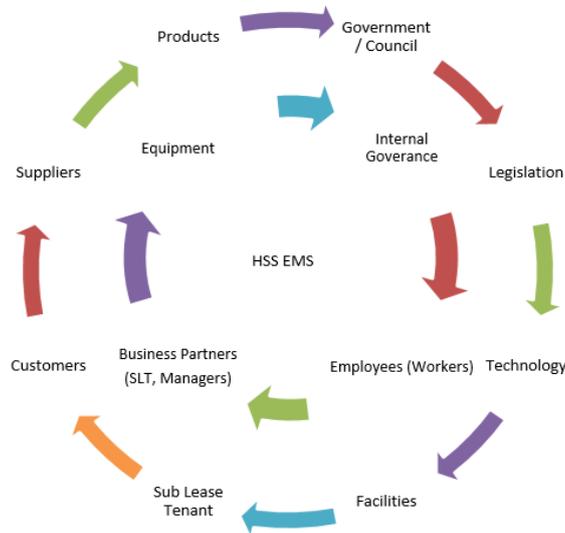

The HSSMS also covers subcontracted services (such as cleaning, VMI and account managers on client's sites).

Vehicles

All OfficeMax owned or leased vehicles in business are within the scope of the EMS however it excludes vehicles privately owned and used by contractors and employees.

External and Internal influences in the Health and Safety Management System

The following outlines who are our interested parties, Internal and external issues what influence our ability to achieve our intended outcomes, programmes, procedures and objectives in relation to our HSS Management System.

Understanding the needs and expectation of interested parties

OfficeMax's authority and ability to exercise control and influence

To achieve the intended outcomes, including enhancing our sustainability performance, OfficeMax will establish, implement and maintain our management system in accordance with the ISO14001 standard for Sustainability and AS4800 Standard for Health and Safety. Documentation, procedures and processors are found on our intranet system.

OfficeMax intended outcome of our HSSMS:

- Comply with our Health, Safety and Sustainability Policies
- Effectively manage Hazards, Risks, Aspects and Impacts

Significant Environmental Conditions

All buildings are set up for commercial business purpose and approved for that purpose through council. OfficeMax Hickory Place has a consent for two swales and a portacom, Highbrook for a portacom. Each site will also comply with relevant local bylaws and required legislation.
